演習問題8 (提出物: NodeMain.java)

(1) NodeMainの実行結果を予想しなさい.

```
>java NodeMain
```

```
public class NodeMain{
    public static void main(String[] args){
        Node leaf1 = new Leaf("リ");
        Node leaf2 = new Leaf("ス");
        Node branch1 = new Branch(leaf1, leaf2);
        Node leaf3 = new Leaf("マ");
        Node leaf4 = new Leaf("ス");
        Node leaf5 = new Leaf("ク");
        Node branch2 = new Branch(leaf3, leaf4);
        Node branch3 = new Branch(leaf5, branch1);
        Node root = new Branch(branch3, branch2);
        root.print();
    }
}
```

(2) NodeMain.javaを入力し, 実行しなさい.
